Companion power add-on on PEDIATRIC manual wheelchairs

COMPATIBLE WITH

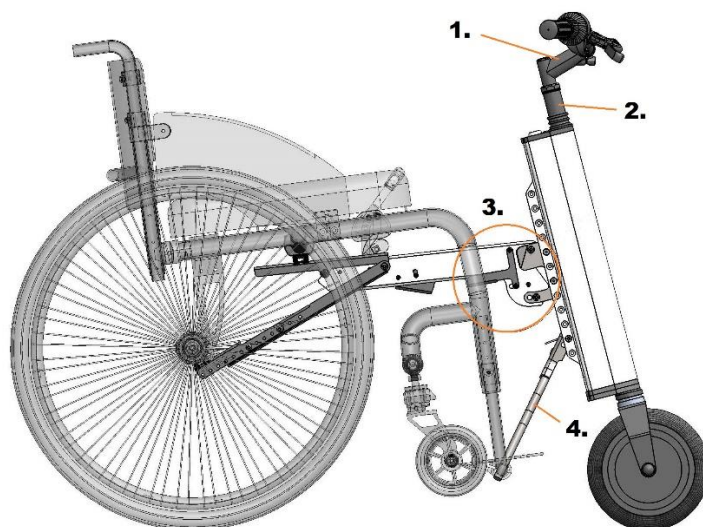

Pediatric Manual Wheelchairs

The Companion is compatible with most pediatric manual wheelchairs with camber tube and crossbar diameters between 19mm (0.75") and 50.8mm (2").

ADJUSTABILITY

The Companion has multiple adjustability options to accommodate for your chair specs. The Companion adjustments can be modified at a later date should the chair change.

Yes, the Companion can grow with your child!

Please contact us should you require a customized solution.

Exceed your reach with your Companion power add-on.
